Project Name:	AI FitTrack API	Maximum Marks:	1 Mark

Communication Strategy:

Effective communication ensures clear milestone tracking, rapid issue resolution, and a well-coordinated final demonstration for evaluators.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose & Agenda
1	Team Standup	Daily	Discord / Slack	Project Lead & Devs	Review daily tasks, API integration status, and unblock dependencies.
2	Progress Update	Weekly	GitHub Projects	Full Team	Track completed user stories against agile sprint timeline and burn-down.
3	Issue & Bug Triage	Ad-hoc	GitHub Issues	Backend & QA Leads	Categorize API bugs, resolve Postman test regressions, and review PRs.
4	Demo Rehearsal	Bi-weekly	Google Meet	Full Team & Mentor	Dry run API feature presentation, time-box slides, and verify demo environment.
5	Evaluator Review	Milestone End	In-Person / Zoom	Team & Evaluators	Present working endpoints, demonstrate Gen AI features, and answer technical questions.

Tooling & Collaboration Matrix:

Tool Name	Primary Function	Workflow Integration in AI FitTrack API
GitHub / Git	Version Control & Project Boards	Feature branching, pull requests, and automated issue tracking.
Postman / Thunder Client	API Testing & Collaboration	Shared test collection repository with environment configuration variables.
Discord / Slack	Real-Time Asynchronous Chat	Instant technical discussions, bug alerts, and quick daily developer check-ins.
Google Meet	Sprint Planning & Demo Dry Runs	Virtual sprint reviews, live screen sharing, and presentation rehearsals.
