

Project Demo Planning Template

Date:	3 October 2026	Team ID:	unm1611MADHANRAJ
Project Name:	AI FitTrack API	Maximum Marks:	1 Mark

Demo Structure & Rehearsal Schedule:

A structured demo plan ensures all technical features, architectural decisions, and evaluator requirements are showcased coherently within the allotted presentation window.

S.No	Demo Section	Description & Live Content	Duration	Presenter
1	Intro & Architecture	Project background, problem statements, MVC structure, and tech stack introduction.	1.5 mins	Madhanraj R K
2	Authentication Flow	Live registration and login via Postman, inspection of JWT and bcrypt hash in MongoDB.	2.0 mins	Devanand R
3	Workout CRUD & Search	Creating, listing, updating, deleting workouts, and multi-criteria regex search demo.	2.5 mins	Abishek M & Kishore samuvel S
4	Gemini AI Fitness Engine	Live invocation of AI workout recommendation and AI fitness progress insights.	2.5 mins	Madhanraj R K
5	QA Suite & Benchmarking	Postman collection runner execution (10/10 passing) and latency benchmark charts.	1.5 mins	Sunil kumar M
6	Evaluator Q&A;	Answering architectural, scalability, and security questions from evaluators.	2.0 mins	Full Team

Rehearsal & Environment Readiness Protocol:

- **Live Connectivity:** Pre-tested MongoDB Atlas cluster connectivity and active Google AI Studio Gemini API keys.
- **Automated Variables:** Postman collection variables configured for automatic JWT token extraction and workout ID chaining.
- **Backup Artifacts:** Offline recorded video demo (FitTrack API Demo.mp4) available in case of external network outages.
