

Team Involvement in Demonstration

Date:	3 October 2026	Team ID:	unm1611MADHANRAJ
Project Name:	AI FitTrack API	Maximum Marks:	1 Mark

Individual Contribution & Demonstration Roles:

This document records the active participation, technical contributions, and presentation responsibilities for demonstrating AI FitTrack API.

S.No	Team Member	Role & Responsibilities	Section Presented	Contribution Summary	Status
1	Madhanraj R K	Team Leader & Gen AI Architect	Architecture & AI Recommendations	Architected Express MVC setup, configured Gemini 1.5 Flash SDK, prompt constraints, and coordinated milestones.	Active
2	Abishek M	Backend Engineer & Workout Lead	Workout CRUD & Regex Search	Implemented workoutController, date sorting, case-insensitive regex search, and category validations.	Active
3	Devanand R	Security Specialist & Auth Lead	Authentication & JWT Security	Configured bcrypt password hashing (10 salt rounds), JWT token signing, and auth.js Bearer middleware.	Active
4	Kishore samuvel S	Database Engineer & Data Modeler	MongoDB Schemas & Data Modeling	Built Mongoose User and Workout schemas, relational ObjectId referencing, and cloud cluster connectivity.	Active
5	Sunil kumar M	QA Automation, Performance & DevOps	Postman Testing & Latency Benchmarks	Developed 10-endpoint automated Postman test suite, centralized error handling, and latency benchmarking.	Active

Team Collaboration Reflection & Evaluator Attestation:

All five team members actively contributed to the design, implementation, testing, and presentation of AI FitTrack API. Each member has demonstrated mastery over their specialized module, validating complete team ownership and engineering alignment under the Naan Mudhalvan guidelines.
